

# International Mobility – Master cycles

Save the date

Thursday 9 MAY – noon/2.00pm

## Managing your International Mobility cases

### What?

Tax Consult and Fieldfisher have decided to join forces for a new cycle of Master Classes in International Mobility (tax, immigration, social security and employment Law) and to share their knowledge and experience during a round table discussion with a limited number of dedicated clients. The year 2019 is key for international mobility and issues need to be addressed professionally (Brexit, revision of the EU social security coordination, single permit, ...).

### Concept?

We will, based on practical cases cover in depth all key points of International Mobility in different scenarios. A number of subsequent seminars will be held in order to do so. A follow up seminar will take place in Autumn 2019.

### Added value?

You will have the opportunity to ask all the questions in respect of International Mobility you never have been able to explore in depth. Furthermore you will together with other specialist International mobility managers/directors be able to exchange experiences and best practices.
